

MEETING REPORT

JTC1/SC17/Working Group 10

18 – 21 June 2024

Seoul, South Korea

Topics Covered

- ISO/IEC 18013-1
- ISO/IEC 18013-2
- ISO/IEC 18013-3
- ISO/IEC 18013-4
- ISO/IEC 18013-5
- ISO/IEC 18013-6
- ISO/IEC 18013-7
- ISO/IEC TS 7367
- ISO/IEC TR 19446

Next Meeting

- August 2024,
Remote

Discussion and Outcomes

Vehicle Registration Certificate

Building on the generic mdoc document concept established by ISO/IEC 18013-5, a Technical Specification for a digital vehicle registration certificate is being created (ISO/IEC TS 7367). The group worked through comments and had good discussion. Progress was made in documenting the data set for such a certificate.

Over-the-Internet mDL presentation protocol

The group reviewed a demonstration of the identity credential browser API, including a cross-device flow. The meeting identified requirements that any protocol that runs on top of the browser API must follow.

Decisions

- None
